Sir:

This letter is in responds to the electric rate increase that Kentucky Power Company is requesting from the Public Service Commission. I feel a 26% rate increase is excessive and an undue burden on all customers. Although I appreciate the fact that the Power Company is experiencing substantially higher expenses, I think an increase of five percent is more reasonable. When looking at my last power bill, it should be noted that the "rate billing" was almost forty dollars less than my "current electric due". It appears to me that the power company is already passing along to me much of their expenses in the form of "Fuel Adj, DSM Adj, Environmental Adj. and Franchise Tax".... ENOUGH!!!

Sincerely,

  
Marsha Kowalski
